Dear Dick:

Some time ago we had a change here in the office of Bureau of Aeronautics Representative. Captain Kenna, USN, was replaced by Captain Forrest A. Roby, USN.

Captain Kenna at the start of our project was briefed without being made knowledgeable by someone in the Defense Department that there was a project and his cooperation with this contractor in its' performance in the project was requested. Captain Kenna passed this on verbally to his executive officer, Commander Wheaton, who has cooperated with us completely on any question that has come up in this regard. When Captain Kenna left, Commander Wheaton expressed an understandable desire that Captain Roby as his superior officer receive a similar briefing to include the fact that overhaul would be performed here since the original briefing involved the procurement side only.

I discussed this with Bill Wilson and he also heard it from Commander Wheaton on one of his visits here. I know Bill made efforts to have this done prior to Captain Roby reporting here but it evidently didn't get accomplished. Friday Commander Wheaton again made his request. Bill and I feel that this is a justifiable request and I would appreciate it if it could be accomplished.

Regards,

JHG
